Redpig Trail

The new Redpig Trail will connect the Wellington Trail and the Wellington neighborhood to the Barney Ford Trail. This new trail will be constructed through a community wide effort in conjunction with Friends of Breckenridge Trails, Higher Ground Earthworks, and Summit County Open Space. Trail highlights include roughly 3,000 feet of new trail contouring through a beautiful north facing forest, existing mining ditches, unique rock outcroppings, and will be an important trail connection to French Gulch.
